

A4 tiled cuts

Print at 100% / Actual size. Each blue frame is 190 x 250 mm. Neighboring tiles overlap by 10 mm. Match repeated lines or crosses; page edges do not butt together.

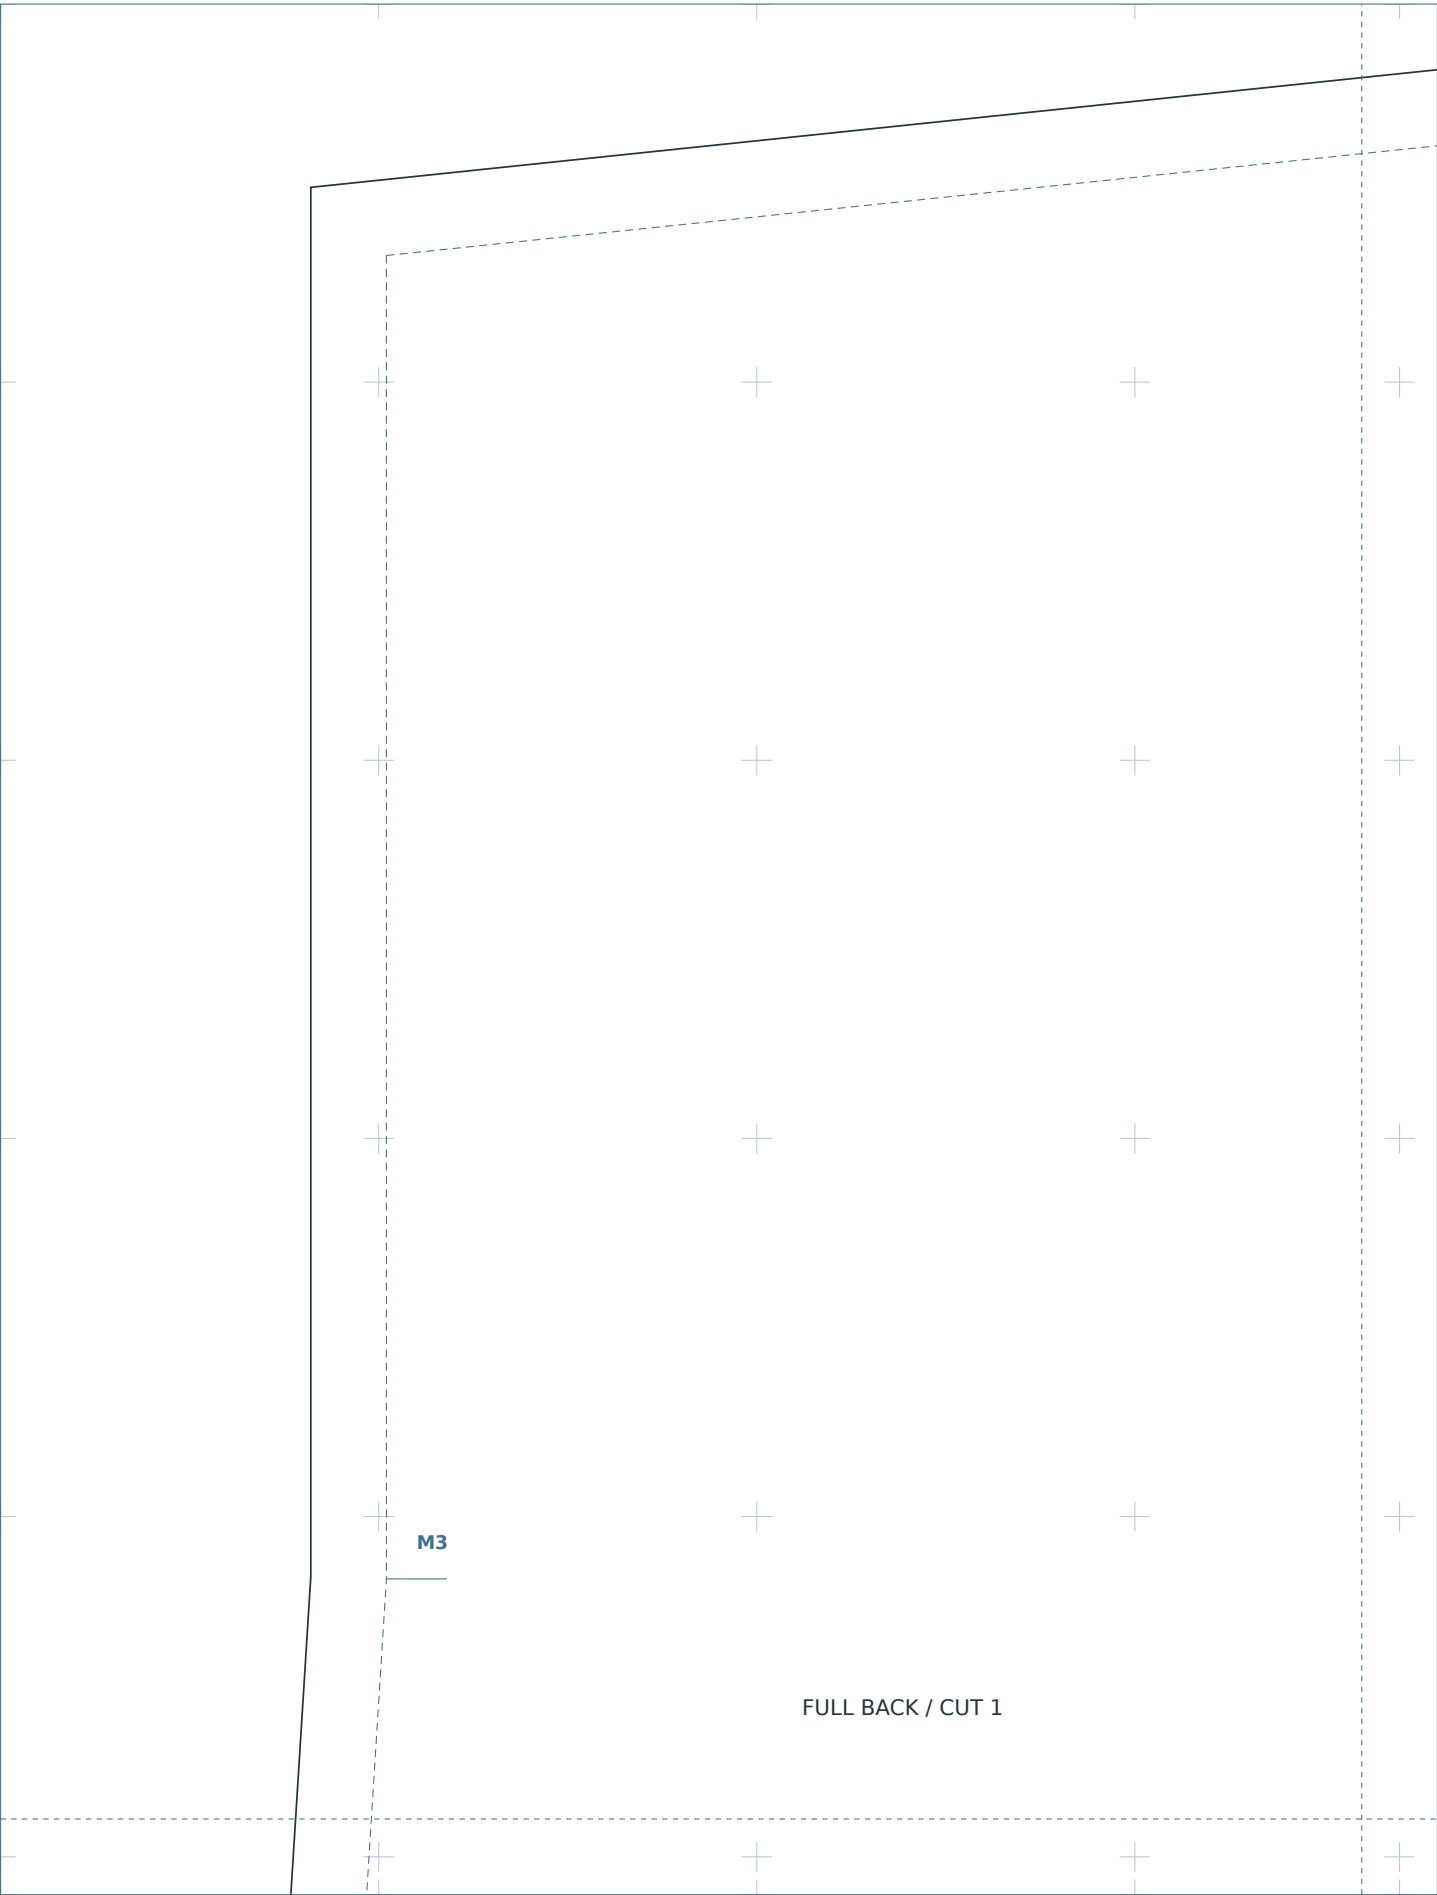

Print this page first at 100% / Actual size. Disable Fit and Shrink. Do not proceed until both square edges and the full bar measure correctly. These example cuts use illustrative measurements; regenerate for the wearer before cutting final fabric.
