

Full-size master

Page 1 is A4. Remaining pages use custom sizes, one unique pattern piece per page. Print on a plotter or use Adobe Poster at 100% with overlap.

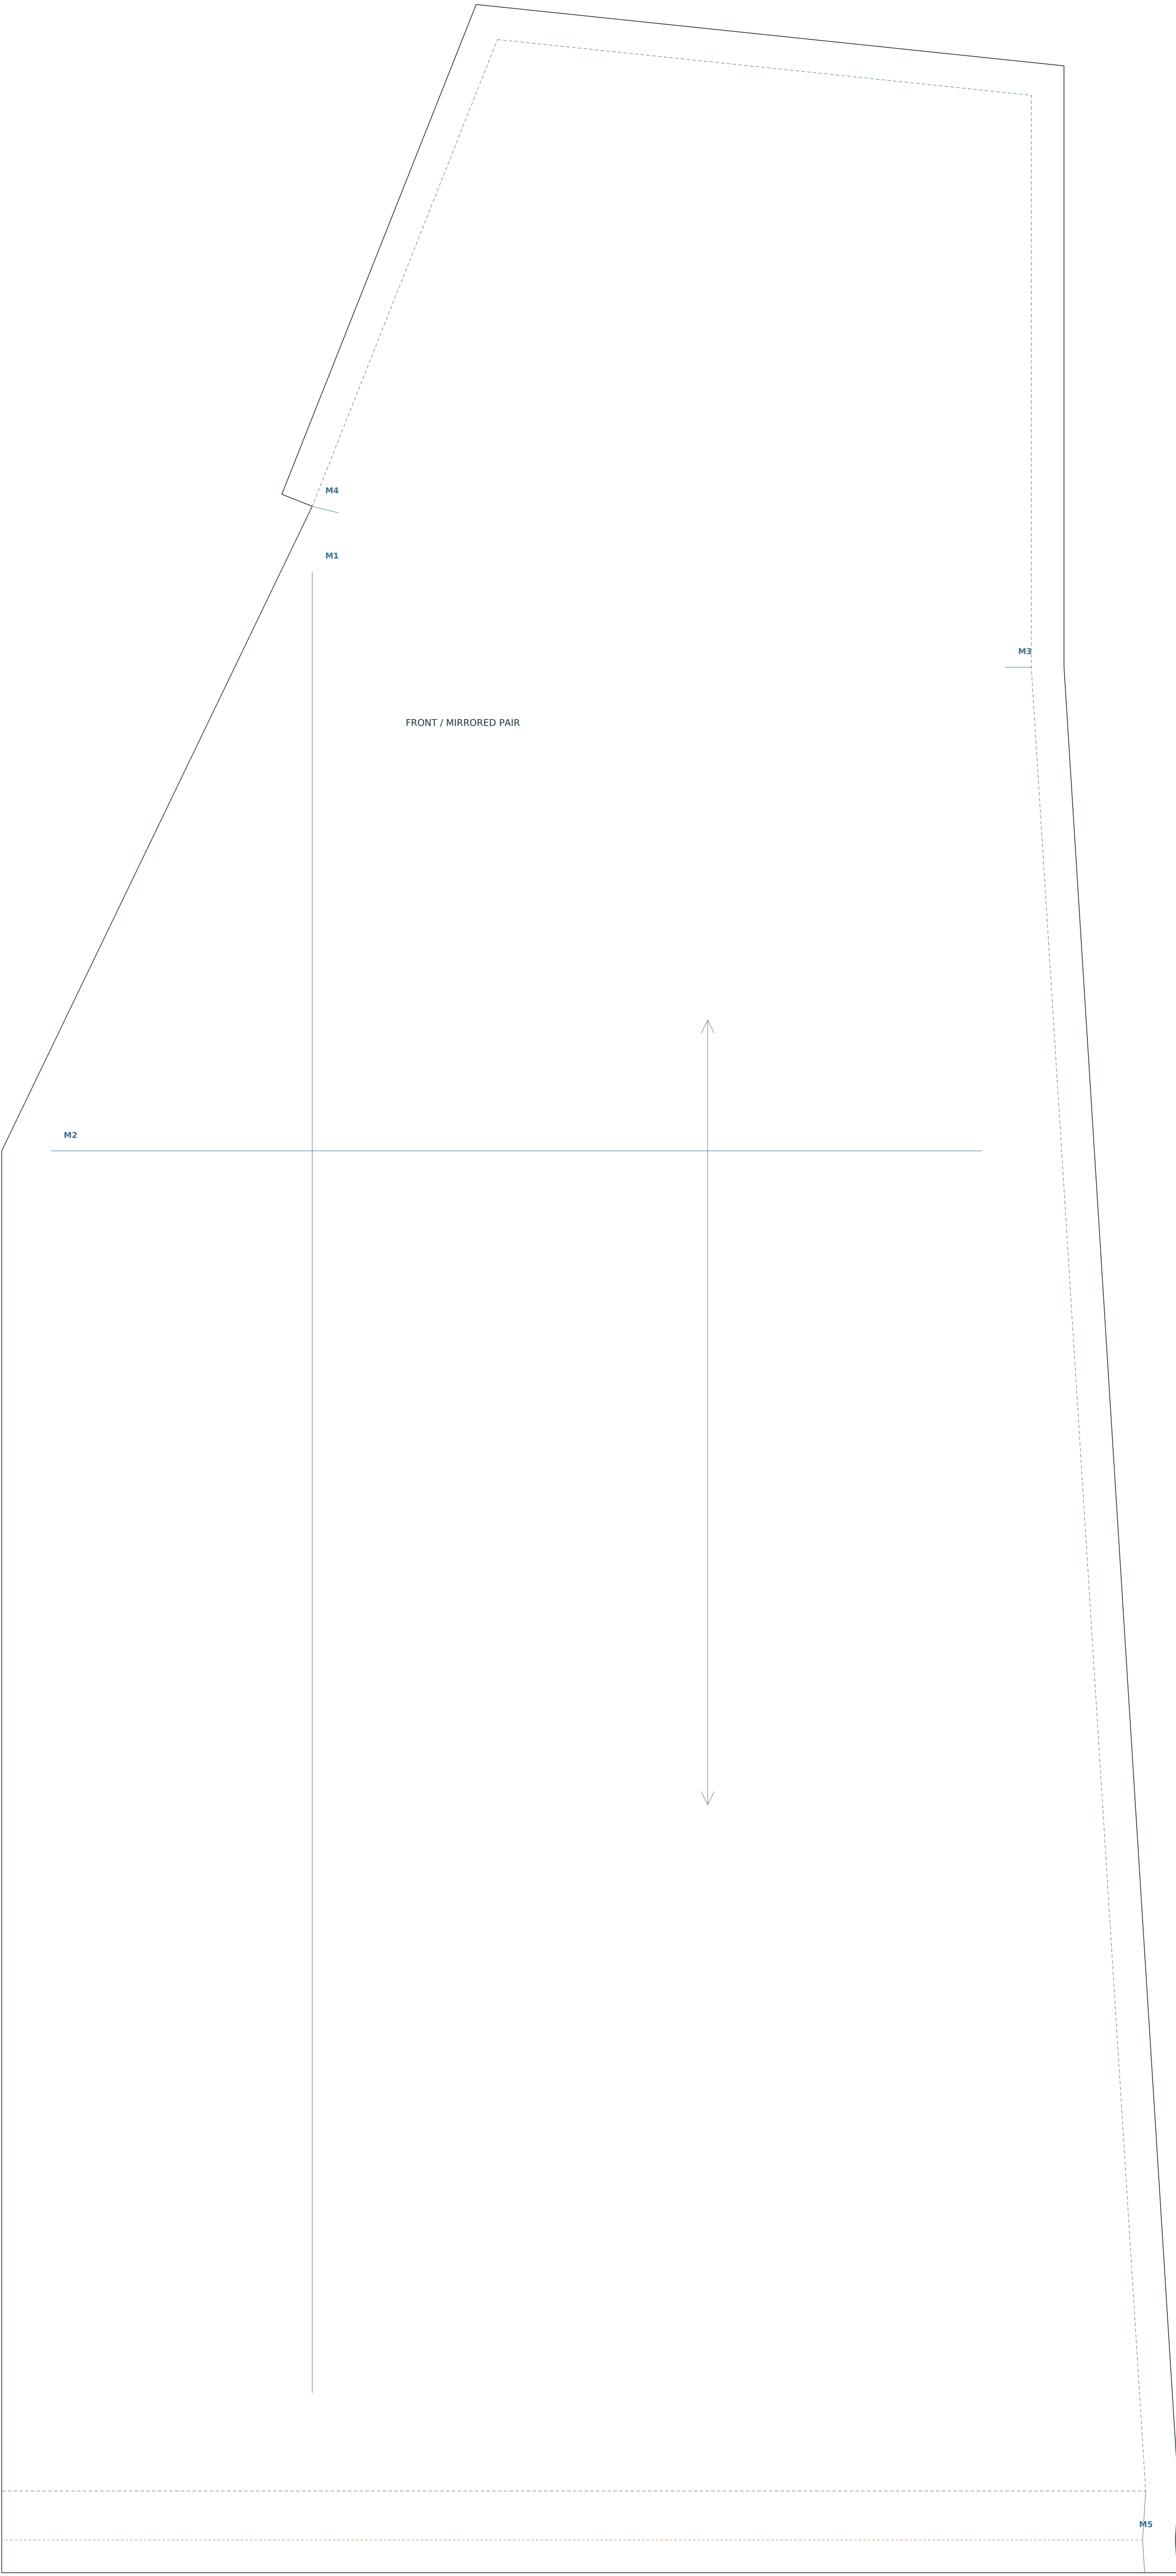

Print this page first at 100% / Actual size. Disable Fit and Shrink. Do not proceed until both square edges and the full bar measure correctly. These example cuts use illustrative measurements; regenerate for the wearer before cutting final fabric.

robe_front / Outer robe - wrap front
